**Topic: Discuss the Blue Storm Action Strategic Plan for
Winning Elections in 2026 and 2028**

Why be there:

- Democrats can win in 2026 and 2028 with an aggressive strategy, plan and execution.
- BSA has drafted a strategic plan with a hard-hitting tactical model to move from idea to execution in hours or days -- not weeks or months.
- We need your help to rigorously validate our assumptions, identify blind spots, ensure an on-target strategy, and carry out an effective execution plan.

The session will be led by Edie Jardine, BSA Steering Committee and ACDC Committee member, with 30 years of executive leadership in state government as well as non-profit, private for-profit, and Fortune 100 companies.
